Gentlemen,

We have completed the requested PEMS testing on the vehicle above. **Ex. 5 DP / Ex. 7(A)**  
**Ex. 5 DP / Ex. 7(A)**

Remember, the soak cycle should be reflective of Bag 1 or Bag 3 of the FTP.

I have attached the PEMS emissions. I have no cell emissions, to the NMHC comparison is not available. Please let me know if you have any questions. Because the emissions look clean, I do not believe we need to test further at this time, and I have instructed Ethan to remove the PEMS equipment from the vehicle. It should be available for lab testing on 6/1.

Sincerely,

Dan
